Grad Plus Loans & Perkins Loans

The #PROSPERAct makes higher ed more expensive for students by forcing them into private loans by reducing federal loan options #RewritePROSPER

.@EdWorkforce simplifying the loan process shouldn't mean reducing opportunities for students in higher education #RewritePROSPER

#PROSPERAct mandates that grad-prof students pay the highest interest rates of all student borrowers even though they default at 3X less than the average. #RewritePROSPER

Capping grad loans at \$28.5K a year will especially hurt masters students and limit the number of professionals we have going into much needed fields like social work, counseling, rehab.

Clery Act Title IX

.@EdWorkforce the #PROSPERAct severely weakens protections for campus safety and sexual assault and puts students at risk. #RewritePROSPER

.@EdWorkforce the #PROSPERAct does not hold campuses adequately accountable for reporting sexual assaults and maintaining a safe campus environment #RewritePROSPER

Justice delayed is justice denied. The #PROSPERAct allows assault investigations to be delayed indefinitely to the detriment students and our campuses #RewritePROSPER

Our campuses need more than one counselor and a one page handout to support sexual assault survivors. The #PROSPERAct falls short of keeping students safe #RewritePROSPER

Campus Climate Surveys are critical to assess the safety needs of our campuses. The #PROSPERAct doesn't hold campuses accountable enough #RewritePROSPER

Need safer and more supportive campuses? Then #RewritePROSPER
