**Underlines are additions while ~~strikethroughs~~ are deletions.**

**Whereas**, the experience of graduate school is unusually stressful and this is borne out in the data, and

**Whereas**, a major contributor to this stress is the relationship between student and advisor, and

**Whereas**, graduate advisors are rarely trained on how to advise graduate students, and

**Whereas**, there exists no governmental oversight of graduate level advising, and

**Whereas**, the Framework for Accountability in Academic Mentorship (FAARM) offers a path to create this accountability, and

**Whereas**, FAARM was founded and is currently run by NAGPS members, and

**Whereas**, the work done by the FAARM project team is consistent with the goals and policy platform of NAGPS,

**Therefore, be it RESOLVED**, that the National Association of Graduate-Professional Students endorses the Framework for Accountability in Academic Mentorship.
